

# Southern California Development Forum Presents...

Tuesday, April 14, 2015 - 7:00am-9:00am

## Post-Acute Healthcare

Fastest Growing Sector in California Healthcare

Long Term Acute Care, Skilled Nursing, Assisted Living and Memory Care

What are the current strategies of the post-acute providers - Long Term Acute Care, Skilled Nursing, Assisted Living and Memory Care - for today's Healthcare Systems? While hospitals provide acute care – such as active short term, inpatient treatment for a severe injury, episode of illness and/or or surgery, the post-acute facilities provide long term patient stays, fostering continued recovery with a focus on restoring medical and functional capacity.

The post-acute world is the single fastest growing part of the healthcare industry these days, and there will be many upcoming opportunities in Southern California.

Come to our April Healthcare Program and hear directly from our private and public healthcare leaders about the owners' delivery planning strategies for California's post-acute healthcare systems and what the impact will be on design & construction. Learn how Long Term Acute Care, Skilled Nursing, Assisted Living and Memory Care providers are creating economic opportunities for local design, development and construction.
