2020 & Beyond: Innovation and Future Trends for Airports and Aviation

Tuesday, February 11, 2020
7:00am-9:00am

City Club Los Angeles
555 S. Flower Street, 51st Floor
Los Angeles, CA 90071

With the global growth in passenger traffic, airports have become the ideal place to integrate new technologies and have become hubs for innovation. With the increased movement of people, airports have looked to modernize infrastructure and adopt technologies to improve the experience. This panel representing both the airport and airlines, will explore new trends and technologies being integrated in 2020 and beyond. These include technology and tools associated with both delivery of construction projects but also during the operation phase and include robotic assistants, biometric technology, and blockchain technology.

MODERATOR

Matt Ross

Senior Vice President, AvAirPros
