Life Sciences 2021: Growth of the Life Science Market

Tuesday, October 12, 2021

12:00pm-1:15pm

Virtual Town Hall via Zoom

All money raised will benefit our chosen philanthropies - Homeboy Industries and 2nd Call

While the COVID pandemic has created challenges, it has also reinforced the importance of the life science market sector which grew during the pandemic. Growth in the sector is being driven by the introduction of new technologies such as cell and gene therapies and increased global demand.

The Life Science markets are generally centered in specific locations such as San Francisco, Boston and with Southern California being in the top 10.

Hear our panel provide an owners perspective of what is valued during the growth period as well as the implications on facilities location and design to accommodate the new technologies.
