# Making (Air) Waves: Mega Aviation Projects

Tuesday, August 9, 2016  
City Club Los Angeles

Tuesday, August 9, 2016  
7:00am-9:00am

City Club Los Angeles  
555 S. Flower Street, 51st Floor  
Los Angeles, CA 90071

The biggest disruptor in airports today is enhancing the passenger experience every step of the way. A focus on this adds significantly to airports' and airlines' bottom lines and creates more opportunities than ever thought possible. By 2017, the FAA expects \$73 billion in aviation infrastructure to be completed. With hundreds of billions more on the horizon, speed-to-market is driving project delivery alternatives, creating a shifting landscape of risk and potentially stretching limited resources.

Join us for a lively panel discussion with leaders in Southern California aviation who are managing massive building programs. Through innovative processes, aligning expectations, and collaborative partnering they are not only disruptors, they are redefining the culture of how we deliver work. Whether you're an owner, architect, engineer or general contractor, don't miss this opportunity to hear how these leaders are navigating through the challenges of bureaucracy, team collaboration, and more.

## MODERATOR

**Terence Young, AIA, LEED AP**  
Design Director, Principal  
**Gensler**

## SPEAKERS

**Greg Campbell, PE**  
Chief Airports Engineer  
**Los Angeles World Airports**

**Iraj Ghaemi, PE**  
Director, Facilities Development  
**San Diego Regional Airport Authority**

**Brent Kelley**  
Principal, LA Office Leader  
**Corgan**

**Dan McGuckin**  
Vice President & Construction Executive  
**Turner Construction**
